#### **Budget variances:**

Rental revenue represents base revenue for tenants. \$514,000 (47%) is noncash in the form of either prepaid rent or the straight line basis required by generally accepted accounting principles (GAAP). Base rent revenue is ahead of budget due to Garwood Medical & Bank on Buffalo subleases, which were not contemplated in the original budget.
Additional rent represents amounts charged to tenants for common area maintenance (CAM) charges, insurance, etc. This is ahead of budget due to tenants not included in original budget. Tenants were billed for 2020 adjustments.

- Utility costs are trending above budget. Costs incurred must be paid by the Master Tenant, then billed back to the tenants in the following month based on leased area.

- Professional fees are above budget year-to-date because some of the costs were unanticipated in the budget.

- Real estate taxes are below budget due lower than anticipated cost. County PILOT, first half of City PILOT and sewer rent are paid

- Repairs and maintenance includes building automation system costs (\$34,000), snow removal and landscaping.

Budget variances:

- Grant revenue relates to Ralph C. Wilson, Jr. Centennial Park and Northland Corridor Projects. The variance is due to lower grant revenue recognition than anticipated. Work at 541 E Delavan has been on pause and Centennial Park is in the Construction Documents phase. - Rental and other revenue consists of recognition of prepaid rent income (straight-line basis) by 683 Northland LLC from 683 Northland Master Tenant, LLC, and rent income at properties other than 683 Northland Avenue. Also included is 2018 Brownfield

tax credit refund to 683 WTC, LLC of \$12.7 million.

- Proceeds from land sales (net) is a result of the Crowley St. sale and the sale of 255 Ship Canal Parkway.

- Development costs consist of property/project-related costs (e.g. construction, operations and maintenance, legal and utility costs) related to projects along Northland Avenue. Some costs will be capitalized upon project completion.

- General and administrative costs consist of consultants, insurance, rents, audit, marketing and other G&A costs. Rents include BUDC offices, Buffalo Manufacturing Works base rent (per ESD grant agreement) and recognition of prepaid rent for Workforce Training Center. Consultant costs for Ralph C. Wilson, Jr. Centennial Park are also captured here, with the variance due mainly to timing. - Depreciation relates mainly to capitalized assets at 683 Northland Avenue.

- Interest expense represents cost of borrowing related to construction of 683 Northland and lines of credit of BUDC and 683 Northland LLC. - Other income represents an inflow of resources from the forgiveness of BUDC's PPP loan.

# **Buffalo Urban Development Corporation**

2022 Proposed Budget October 26, 2021

## A. Overview:

Throughout 2021, Buffalo Urban Development Corporation ("BUDC") has continued to make significant progress in advancing all projects related to the transformational Northland Corridor Redevelopment on Buffalo's East Side.

This development project began in late 2014, with the acquisition of the eleven (11) acre former Houdaille Industries/Vibratech facility at 537 East Delavan Avenue. A major portion of this building was demolished in 2017, and a NYSDEC superfund investigation of the site continued in 2020. In 2018, BUDC began developing a portion of the site by reconstructing a 15,000 square foot building. In December 2019, this building became the interim home of the Albright Knox Art Gallery, as the gallery renovates their historic Elmwood Avenue complex. The BUDC project was funded in part with Restore NY IV funding. In addition, the 537 East Delavan property continues to be enhanced by another project that began in 2019 and continued through 2020. A 40,000 square foot building in the northeast corner of the property is being rehabilitated to potentially house a neighborhood food and wellness facility. The early phases of this project were started in 2019, but were put on hold due to COVID-19. This project is funded in part with Restore NY V funding.

In 2015, an additional twenty-four (24) acres of property were acquired by BUDC in the Northland Corridor that included four (4) derelict manufacturing buildings. In 2016, Watts Architecture & Engineering was selected as the lead design firm for future projects in the corridor. After a thorough building analysis process, it was decided that 683 Northland ("Northland Central") would become the focus building on the campus for initial renovation. Buffalo Billion I funds were obtained from New York State to move the first phase of rehabilitation forward, and Gilbane Building Company was selected as the construction management team for the project. Contractors were then procured to initiate remediation and renovation in order to transform a portion of Northland Central into the \$44 million advanced manufacturing and clean energy related Northland Workforce Training Center ("NWTC"), Northland Central's first anchor tenant. A team was also engaged to perform work related to the historic preservation, new market and brownfield tax credits that would be obtained for the Northland Central project, with BUDC taking the developer role. The NWTC opened in September 2018 and Phase 1 work was completed in January 2019.

In 2018, BUDC secured Buffalo Billion II funds to begin Phase 2 rehabilitation of Northland Central for a second anchor tenant, Buffalo Manufacturing Works ("BMW"). The majority of the BMW build-out took place in 2019, for an October grand opening. BMW occupies approximately 50,000 square feet of the building. Phase 2 included the preparation of approximately 50,000 additional square feet for other potential tenants. In 2020, additional leases were signed with Rodriguez Construction, SparkCharge, and Retech Systems. In 2021 lease was signed with Bank on Buffalo, which brings the occupancy at Northland Central to 97%.

As an amenity for the Northland Central building, BUDC created a food service space that serves the NWTC, BMW, and the surrounding East Side community. A lease was signed in 2019 with a local food purveyor, Manna @ Northland to operate a restaurant and catering kitchen. Manna has weathered the difficult conditions brought on by COVID-19 and continues to be an integral part of the Northland Campus.

In 2020, to complement the Northland Corridor redevelopment, the City of Buffalo completed a road and right-of-way reconstruction project for Northland Avenue which includes on-street parking, LED lighting, pedestrian amenities, and a small "pocket park" on a parcel owned by BUDC.

In 2018, Mayor Byron W. Brown and the Ralph C. Wilson Jr. Foundation announced a \$50 million funding commitment to transform around 100 acres of the current Lasalle Park into the Ralph C. Wilson Jr. Centennial Park. This reimagined park is intended to provide access to world-class park amenities and Lake Erie to the underserved local community and the entire region. The creation of the Ralph C. Wilson Jr. Centennial Park aligns with some of Mayor Byron W. Brown's continuous goals by increasing employment opportunities for City of Buffalo residents, promote general diversity, community project involvement and increase the utilization of Minority and Women Business Owned Enterprises in major development projects.

The Reimagine LaSalle effort was made possible through the generosity of the Ralph C. Wilson, Jr. Foundation in partnership with the Community Foundation for Greater Buffalo. The University at Buffalo School of Architecture and Planning and one of its research centers, the UB Regional Institute (UBRI), are managing this community engagement process to ensure broad and meaningful community input shape the park's future. Michael Van Valkenburgh Associates, a New York-based landscape architecture firm known worldwide for its creative and unique urban design with projects that include parks, plazas, cultural institutions, gardens, and more, is leading the design of the Ralph C. Wilson, Jr. Centennial Park. The City of Buffalo is an active project partner represented by its Division of Parks and Recreation, the Buffalo Urban Development Corporation, the Department of Community Services and Recreational Programming, and the Mayor's Office of Strategic Planning. The project represents a complete park renovation, providing transformative recreational opportunities for Buffalo.

The overall project area is about 100 acres and includes:

- A new pedestrian bridge crossing the I-190.
- Multiple playgrounds including a 2.5-acre destination playground with custom equipment and features.
- Softball, soccer, and football fields with furnishings and sports lighting.
- New pedestrian and security lighting throughout the park.
- New structures housing comfort stations, offices, and food and beverage areas.
- New underground utilities for the overall park.
- Fully redesigned pedestrian, bike, and vehicular circulation (paths and roadways)
- Considerable topographic manipulation of the site (cut and fill).
- Complete redevelopment of the shoreline, including:
  - A natural habitat feature called <u>The Inlet</u> brings the shoreline inland turning about 2 acres of land surface to the water surface.
  - A Blueway Site called <u>The Outcrop</u> which creates a cove for water access and kayak launching.
  - Sheet pile wall and rip rap segments.
- Extensive planting soils and landscape installation.

In 2012, BUDC began the Buffalo Building Reuse Project (BBRP) for Downtown Buffalo. Following the positive strides made through BBRP, with the adaptive reuse of historic buildings, development of residential housing units and significant investment in streetscape and infrastructure; our recently introduced Buffalo's Race for Place initiative looks to take downtown to the next level, by closing the gaps within our public realm and by creating a vibrant sense of place. Through continued improvement and maintenance of public infrastructure with a focus on place-making, innovation, and integration of "smart city" technology, Race For Place looks to boost Buffalo as an attractive home for businesses, entrepreneurs, new talent and residents alike. In 2021, BUDC in conjunction with the City of Buffalo, released the Ellicott Street Placemaking Strategy to improve the public setting to attract and encourage continued investment, real estate development, talent attraction and add to down Buffalo's quality of life for employees, residents and visitors. BUDC is also coordinating with the City of Buffalo on the redevelopment of the Mohawk Ramp into a mixed use development and many other efforts related to furthering the Race for Place initiative.

BUDC is in the process of funding loans through the BBRP Loan Program. In 2016, with assistance from the Buffalo Niagara Partnership and Pursuit (formerly New York State Business Development Council), BUDC successfully leveraged additional private bank funding to add to the BBRP Revolving Loan pool, allowing BUDC to fund additional adaptive reuse projects that add to downtown's residential base. BUDC also utilized the previously released Infrastructure & Public Realm Master Plan as a guide for strategic infrastructure investments for a more cohesive and vibrant downtown. The guidance of the Master Plan was critical in BUDC's preparation of several successful grant applications for infrastructure improvements including the Entertainment District project, which includes Chippewa, Franklin and Court Streets, which began construction in Spring 2021 after a COVID-19 delay.

The Queen City Pop Up Program was created in 2014 to encourage small business retail along Main Street. This ongoing program acts as a springboard for small business retailers by allowing them to set up shop on downtown Main Street on a temporary basis, rent free. Queen City Pop Up also provides comprehensive onsite training for participating retailers. The project looks to encourage participants to open permanent retail locations after completing the program. To date, the program has assisted approximately fifty (50) small business retailers, resulting in seven (7) retailers opening permanent stores along downtown Main Street and five (5) retailers permanently locating in other commercial corridors in the City of Buffalo. Although the Queen City Pop Up Program was paused in 2020 due to the COVID-19 pandemic, BUDC partnered with Buffalo Place and the City of Buffalo on a holiday shopping promotion and COVID related efforts for small businesses. BUDC plans to reinvigorate the program for the 2021 Holiday cycle.

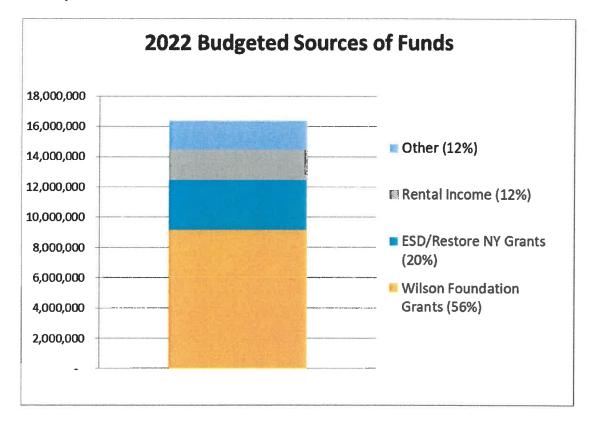

BUDC will continue to operate and market the Buffalo Lakeside Commerce Park ("BLCP") in 2022. In 2021 a sale of 20 acres of property at BLCP closed, for gross proceeds of \$542,000. The 2022 budget assumes that 10 acres of BLCP property will be sold for gross proceeds of \$325,000.

Property acquired by BUDC at 308 Crowley Street in 2018 has been a part of pre-demolition site work and an environmental investigation funded by the City of Buffalo. The City

developed bid documents for a select demolition at the site. Phase 1 of the demolition is underway, with Phase 2 expected to begin by the end of 2021.

## **B.** Sources of BUDC Funds:

The following chart summarizes the significant sources of the \$16.3 million in funds that have been budgeted for BUDC projects in 2020:

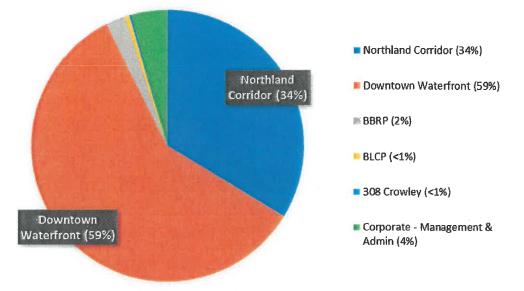

The key sources of BUDC funds are as follows:

- (1) Ralph C. Wilson, Jr. Foundation Grants In 2022 BUDC expects to recognize \$9,155,000 in grant revenue from the Wilson Foundation associated with five grant agreements. Each grant supports the redevelopment of LaSalle Park into the Ralph C. Wilson, Jr. Centennial Park along the city's shoreline.

## MEMORANDUM

- TO: BUDC Board of Directors
- FROM: Antonio Parker, Project Manager
- SUBJECT: Ralph C. Wilson, Jr. Centennial Park MVVA Construction Document Package # 2
- **DATE:** October 26, 2021

At the May 25, 2021 meeting of the BUDC Board of Directors, the Board approved an amendment to the Master Service Agreement with Michael Van Valkenburgh Associates (MVVA) for the preparation of construction document package #2 for the Ralph C. Wilson Jr. Centennial Park project. The total cost of this work is \$929,386.00. The Board's approval was made contingent upon additional funding being secured and approved by the Board, and that no work could be commenced by MVVA on construction document package #2 until the contingency was satisfied.

BUDC, working with its project management team at Gardiner & Theobald (G&T) and the Ralph C. Wilson, Jr. Foundation, has identified funding to satisfy the contingency. As outlined below, the funds to pay for construction document package #2 will be drawn from previous Wilson Foundation grants. In addition, the Wilson Foundation has approved additional grant funding for Grant #4 in the amount of \$139,804.

- \$13,000 in contingency funding from Wilson Grant #1
- \$50,725 in unused funds from Wilson Grant #2
- \$418,298 in remaining funding from the original Wilson Grant #4
- \$7,564 in contingency funding from Wilson Grant #6
- \$300,000 from the Edith Wilson and Linda Bogdan Garden and Tennis Fund from the Community Foundation of Southeast Michigan

## **ACTION:**

I am requesting that the BUDC Board of Directors: (i) accept \$139,804 in grant funding from the Ralph C. Wilson, Jr. Foundation, which will be documented as an amendment to Wilson Grant #4; (ii) approve the funding for construction document package #2 and release the contingency as outlined in this memorandum; and (iii) authorize the President or Executive Vice President to execute such documents and take such actions as may be necessary to implement this action.
