

# DOWNTOWN WATERFRONT IMPROVEMENTS PLAN: SURVEY #1 • NEEDS AND OPPORTUNITIES

*We want to hear from you!*

The City of Buffalo and BUDC are gathering community input and feedback on the Downtown Waterfront Improvements Plan (DWIP). The DWIP aims to better connect residents and visitors to the Downtown Waterfront area through accessibility and placemaking enhancements, including improving roadways, trails, parks, signage, lighting and more.

The survey will help us better develop preliminary recommendations that respond to the issues, needs, and opportunities most important to you and other members of the community.
